

Studies in Revelation

John France, shortly after retiring as full-time pastor, between November 2018 and July 2021, treated us to a set of studies on Revelation expositing the whole book in 35 sessions. They were mainly delivered on Saturday mornings in double sessions, but the Letters to the Churches were covered as Sunday morning sermons.

The studies take a premillennial position (John covers different end-time views in the Introductory Talk). This is broadly in line with Roger Price's teaching which you can now access [here](#).

Dip in or start from the beginning to get fresh 'revelation' from Revelation. Please note you need to start with Number 35 and work backwards to 1. Scroll right down to find the first talks. You can also access these studies from our podcast but we have made it into a sequential playlist here for you.

A couple of John's talks are available on our [YouTube channel](#), where you can also see the quotes and passages on powerpoint.
